

**WHEN
IT COMES
TO MOLD
CONTROL...**

**NOBODY
STACKS UP
BETTER
THAN ISK.**

The truth is, mold can make your pallets look bad...smell bad...and worst of all, it's bad for business—eating away at your productivity and profits. The good news is, for proven mold control in finished pallets, few other suppliers compare to the service and performance you get from ISK Biocides.

For the food, pharmaceutical and paper industries, we offer a full range of effective mold-control treatments for the many different processes of pallet production. All backed by our unmatched service and 80 years experience in wood preservatives. In fact, our knowledgeable sales representatives help you find not only the best product for your particular mold problem, but the best solution that fits your manufacturing operation.

So whatever your mold problem or production need, trust ISK for a better solution that's truly better for your pallet business. Call your ISK Biocides representative today about our full line of mold control treatments. And see for yourself how well we stack up with real experience, proven performance and lasting value in mold protection!
